

Wonder Women

# Artworks by Transition House residents

Works presented in this book have been created by homeless women, survivors of domestic violence, during art workshops organized by Anne Plaisance, a visual artist, founder of the ART' S ROOM PROJECT.

Workshops were held on a weekly basis, were between 1 and 3 hours long depending on the subject/theme, at the Transition House shelter in Cambridge, between January and September 2017.

Transition House is a Cambridge non profit organization that supports survivors of domestic violence, for 40 years.
